FIXED STATION MONITOR
03 DEFENDER 30

Features

- Corrosion Resistant Brass Construction
- Unobstructed 3" Single Waterway with Turning Vanes at each Elbow provides Flow Efficiency. Allows Flow up to 1,250 gpm
- Low Friction Loss at 0.69 bar (10 psi) for 800 gpm
- Double Row of Ball Bearings in all Swivels for Smooth Operation
- Brass Locking Mechanism for Vertical and Horizontal Movements
- Vertical Movement Controlled by Lever Handle
- 360^{o} Horizontal Rotation
- 150^{o} Vertical Travel (90^{o} above to 60^{o} below Horizontal)
- Excellent for Industrial and Marine Applications
- Red Paint Finish
